Election of Species Requirement

This application contains claims directed to the following patentably distinct species of the claimed invention: tooth whitening activators.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claims 6, 14, 25, 32 and 39 are generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over

Art Unit: 1614

the prior art, the evidence or admission may be used in a rejection under 35

U.S.C. 103(a) of the other invention.

A proper election will name one SPECIFIC activator, e.g. "glyceryl triacetate", "EDTA" or "xylitol", respectively, and not a genus such as "metal-ligand complexes" as was previously selected by Applicant at page 7 of Paper no. 8.

INTERVIEW IS REQUESTED

The prosecution by the previous examiner is not what one would call a model of clarity.

The new examiner believes that a telephonic interview PRIOR to responding to the above election of species requirement would be extremely beneficial in clarifying and moving forward prosecution. Applicant is requested to arrange same at the earliest possible convenience.
